

William Greulich, owner of Kensington Consulting, is a recognized expert in the fields of risk management, regulatory compliance and operational efficiency. His background includes leadership roles in pharmaceutical manufacturing, city government and senior consulting support to major public and private organizations world wide.

Kensington Consulting provides cost-effective support and customized programs for both public and private organizations. Whether your need is for long-term, comprehensive planning or solving an urgent problem, Mr. Greulich works with you to tailor services that specifically address your particular situation. He brings his unique skills and perspective to bear in helping you improve your organization's productivity while safeguarding lives and property. Mr. Greulich also has immediate access to a network of expert professionals ready to put their technical skills to work on your project.

Kensington Consulting provides objective review and analysis, issue resolution and program development in the following areas:

- * Regulatory compliance needs analysis and program development
- * Hazard evaluation and hazard mitigation
- * Code and engineering design regulations
- * Risk identification and analysis
- * Workplace safety and health
- * Emergency response and business resumption planning

Kensington Consulting's client list includes Althea, BAE, Bayer, California Office of Emergency Services, Chiron, City of San Jose, Columbus Foods, County of Sacramento, Dole, FullBloom Bakery, Genentech, General Chemical, HNI, International Rectifier, Momentive, Nestlé, PG&E, Roche, Sunoco, University of California Berkeley, and, University of California Davis.

As former Manager of Emergency Services for the City of Berkeley, California, Mr. Greulich was directly responsible for creating, implementing and exercising all aspects of emergency planning for this globally recognized city of more than 100,000 people. He was instrumental in establishing the innovative "Berkeley Alert" joint emergency response task force, and was responsible for extensive community outreach and collaboration with other public agencies.

Mr. Greulich's industry experience includes managing Environmental, Health, Safety and Security functions including loss prevention and hazard mitigation for Bayer Corporation's worldwide biotechnology headquarters, a manufacturing enterprise with nearly €1 billion sales (2010).
